

Australian Defence Credit Union Limited, as an Authorised Deposit-Taking Institution (ADI), is regulated by the Australian Prudential Regulation Authority (APRA). APRA is the prudential regulator of the Australian financial services industry. The fundamental role of APRA is to ensure the stability of the financial industry, primarily through the establishment and enforcement of prudential standards.

One of APRA's main focus areas in ensuring that the member's funds are safe is to ensure that financial institutions hold adequate amounts of capital.

In 2008 Prudential Standard 'APS 330 Capital Adequacy: Public Disclosure of Prudential Information' became effective. The standard requires financial institutions 'to make high quality and timely disclosures of information on its risk management and capital adequacy to contribute to the transparency of financial markets and to enhance market discipline'.

The following disclosures on capital and credit risks are for Australian Defence Credit Union Limited (ADCU) ABN 48 087 649 741.

ADCU is using the post 1 January 2013 common disclosure template because it is fully applying the Basel III regulatory adjustments as implemented by APRA from 30 June 2013. This is a change from the previous quarterly reporting formats.

The information in this report is prepared quarterly based on ADCU financial records. The financial records are not audited for the quarters ended 30 September, 31 December and 31 March. The report for 30 June is based on the financial statements as audited at 30 June.

There are no other legal entities that comprise a consolidated group.

Capital Requirements

An ADI's capital is measured by means of risk based capital ratios calculated by dividing each of its Common Equity Tier 1 Capital, Tier 1 Capital and Total Capital by its risk weighted assets.

The risk weighted assets for each asset grouping as set out in the table below is determined by the APRA Prudential Standards APS 112. These are prescribed risk weights to measure the level of risk based on the nature and level of security supporting the assets recovery.

The risk weighted assets held as at the end of the quarter 31 March 2015. is as follows.

Table 3: Risk Weighted Assets (RWA) by Asset Class

Capital Held by ADCU

ADCU maintains a capital policy and sets a capital target above the minimum as prescribed by the APRA Prudential Standards. Any excess facilitates future growth within the ADI.

The capital ratio is the amount of capital described in Table 1 divided by the risk weighted assets in Table 3

Credit Risk

Credit Risk-Investments

Surplus cash not invested in loans to members are held in high quality liquid assets. This includes the funds required to be held to meet withdrawal of deposits by members of ADCU.

ADCU uses the ratings of reputable ratings agencies to assess the credit quality of all investment exposures, where applicable, using the credit quality assessment scale in APRA Prudential Guidance in APS112. The credit quality assessment scale within this standard has been complied with.

Table 5 below excludes equity and securitisation exposures. Securitisation exposures are set out in the Table 8 that follows.

The exposure values associated with each credit quality step are as per below in Table 5.

Credit Risk-Loans

The classes of loans entered into by ADCU are limited to loans, commitments and other non-market off-balance sheet exposures. The ADI does not enter into debt securities and over-the-counter derivatives.

Impairment details

The level of impaired loans by class of loan is set out below. In the note below -

- Carrying Value is the amount of the balance sheet gross of provision (net of deferred fees).
- Past due loans is the 'on balance sheet' loan balances which are behind in repayments past due by 90 days or more but not impaired.
- Impaired loans are the 'on balance sheet' loan balances which are at risk of not meeting all principle and interest repayments over time.
- Provision for impairment is the amount of the impairment provision allocated to the class of impaired loans.
- The losses in the period equate to the additional provisions set aside for impaired loans, and bad debts written off in excess of previous provision allowances.

The impaired loans are generally not secured against residential property. Some impaired loans are secured by bill of sale over motor vehicles or other assets of varying value. It is not practicable to determine the fair value all collateral as at the balance date due to the variety of assets and condition.

The analysis of the ADI's loans by class is as follows in Table 6

General Reserve for Credit Losses

This reserve is set aside to quantify the estimate for potential future losses in ADCU loans and investments.

In addition to the provision for impairment, the Board has recognised the need to make an allocation from retained earnings to ensure there is adequate protection for members against the prospect that some members will experience loan repayment difficulties in the future, and the risk of loss on investments and other assets.
